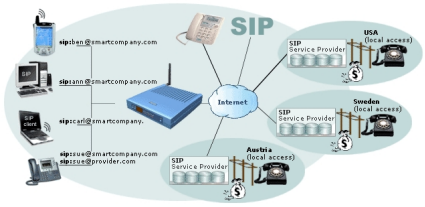
Make inexpensive long distance calls all over the world. Your phone calls are carried over the Internet globally, but routed to the telephony network and your callee locally.



- You can lower you phone rates radically!
  Not just 30% - We talk up to 90%…

What are the steps to get there?

1. Get accounts with suitable SIP providers supported by the Internet Gate SIP Switch and having good PSTN connectivity in the countries you communicate with.
2. Buy the Internet Gate SIP Switch software addition.
3. Download a Dial Plan and fill in the SIP accounts to be used for different countries or areas.
